community
since 1972.**

Our services

**counseling & intervention
residential programs
outpatient treatment
psychiatry
crisis intervention**

seaviewseward.org

programs **mental health**

One in eight adults receives mental health treatment, and we're here to guide you or your loved one through the steps to decide what kind of treatment is most beneficial.

substance use

Nine of the ten leading causes of death in Alaska may be strongly associated with substance use as a contributing cause (chronic liver disease, cirrhosis, homicide, suicide, etc.) SeaView understands that addiction is a healthcare issue that requires treatment in order to recover. We're here to support you in accessing the treatment you need.

crisis response

There is hope for any problem! Support is just around the corner with our 24/7 crisis line and mobile crisis team — or just come on in to our Outpatient Center. We are here for you.
